

The staff at Vistabeam hopes all of our customers are having a GREAT summer! We wanted to let you know about some of the exciting things Vistabeam has going on this summer.

Wider Deployment of Vistabeam PRO Services:

Vistabeam PRO Services are our 1 MB and faster service packages. These higher-speed packages are now available in Bayard and Lake Minatare. Additional PRO Service capacity has also been added in Scottsbluff, Gering, Terrytown, Laramie and Glendo; and were not finished adding capacity! Vistabeam PRO will soon be coming to Gurley, Lingle, Fort Laramie, Chugwater and Lusk. If Vistabeam PRO Service would enhance your Internet experience, call our office for pricing and availability: 308.635.9434 or 888.251.0920.

Our Footprint is Expanding:

Growth is good, and we're growing! Regular Vistabeam service is now available in Banner County, Albin, LaGrange, Dix, South Sioux County and Pine Bluffs. Our growth not only offers us the ability to provide Vistabeam service to new customers, our growth provides a more reliable network for our existing customers as well. As we grow, our backbone capacity increases. As our backbone capacity increases, we are completing a series of several "rings" in our backbone which will provide more redundancy in our network. More redundancy in the network provides more reliable service in the event of tower or power outages; and this is good for all Vistabeam customers.

"Tree Buster" Service Expanding:

Trees can be an issue for the line-of-sight requirements our internet service demands. With our 900 mhz system, trees are no longer an issue! Our 900 mhz system has expanded from Scottsbluff and Gering and now includes Laramie, Lingle and Lake Minatare. 900 mhz service is only available on the Vistabeam PRO plans of 1 mb or higher, but installation costs will be the same.

Callbeam Phone Service Available:

We are excited to offer Callbeam to our customers. Callbeam is Vistabeam's VOIP phone service. VOIP stands for Voice over Internet Protocol and means that you can get your phone service through your Vistabeam Internet connection.

*\$24.95/month for unlimited voice calls (local and long distance within the continental US)

Our service includes caller-id, voicemail, online account management, call waiting, call forwarding and three-way calling at no extra charge! Local numbers are currently available in Scottsbluff, Laramie, Cheyenne, Lusk and Glendo. We can also port local numbers from Qwest and Embarq for customers in the Scottsbluff and Laramie exchanges. To find out more about Callbeam, please call our office at 308.635.9434 or toll free at 800.251.0920, or send an email to info@vistabeam.com.
